REVISOR OF REGULATIONS
DEC 15 01 00 1908

Title 104 - STATE ENERGY OFFICE

Chapter 1 - INTRODUCTION

001 In 1980, LB 954 was passed by the Legislature and signed into law by Governor Charles Thone to promote the conservation of energy resources and to provide for the public health, safety and welfare. The Legislature also mandated that the Director of the State Energy Office identify conservation devices, renewable energy technologies, and specific home improvements that would qualify for a residential energy conservation loan by the Nebraska Mortgage Finance Fund.

The following rules and regulations pertain to the procedures to be used to comply with Section 2 of LB 954 by the State Energy Office and all other interested parties.

It is the intent of these rules to implement and carry out LB 954. Wherever any conflict may be found between the rules and the law, the law shall prevail.
